

City Health Care Partnership CIC

a co-owned business

We are pleased to announce that we have a  
new member of our practice team:

**Samier El-Kamel / Emma Hewitt**  
**Clinical Pharmacist**

A clinical pharmacist is an expert in  
medicines and aims to ensure the safe  
and effective use of medicines to  
improve patient care.

Appointments now available  
for medication reviews.

Providing Quality Care

INVESTORS  
IN PEOPLE

## **Role of clinical pharmacist:**

- Conduct medication review clinics to discuss your medication in depth, optimise and synchronise medication.
- Resolve medicine issues and provide advice.
- Check medication changes following a hospital admission, and ensure patients receive the medicines they need following discharge.
- Prescribing within areas of competence (for Independent Prescribers).
- Home visits available if needed.
- Management of repeat prescribing process to improve access to medicines.

**By having a pharmacist on our team, we aim to reduce waiting times for appointments, improve patient health outcomes, improve screening and diagnosis of chronic and common ailments, reduce A&E admissions and attendances, reduce medicines wastage, and overall, improve patient safety regarding use of medicines.**
